<b>Location:</b>	Ft Lauderdale, FL, USA		

## Description

---

This 2010 58' Vicem is presented as better than new. She has added equipment and all the "new boat" bugs are gone. Here is an opportunity to own the latest model 58 on the market without having to wait a year to have one built.

While not the largest in the Vicem Classic "lobster boat" line up, the 58' is one of Vicem's most popular models. This size provides many combinations: (2) or (3) cabins, galley up or down, a convertible office or den, a dinette, a flybridge, an aft crew quarters, and many other combination that the Buyer may choose. This boat has the (3) cabin, galley down layout.

**Loaded with equipment!**

A Modern Classic - the Vicem 58 Motor Yacht is handcrafted from the finest materials available to be the best in its class and size range. This yacht has a handsome classic look and provides a quiet, dry ride because of Vicem's superior design and construction technique.

Vicem Yachts are constructed of African and South American Mahogany and Epoxy resin. Mahogany is a renewable resource, reducing our carbon footprint. Also noteworthy, is the fact that Vicem Yachts are constructed in clean factories without the smell of styrene emissions found in polyester fiberglass factories. Vicem employs very few minimum skilled workers; every boat builder is a qualified carpenter who performs at different levels depending on the difficulty of the task. All wood on a Vicem hull and the keel, chine, sheer, frames, and beams are coated with epoxy resin serving as a moisture barrier. The exterior of the hull and interior of the entire bilge and engine room area is further coated with a layer of E-glass cloth and epoxy resin that is finished with epoxy fairing compounds, epoxy primers, and poly-urethane paint. Over 100 Vicem Yachts up to 92 feet have been built using this time-proven blend of modern and traditional construction methods.

This is a really special 58 Vicem with three staterooms and a beautiful high gloss mahogany interior. Call today for more information!
